

Hi, I'm Neha Malode

Graphic & ui/ux Designer

I am an experienced Graphic Designer.
Whether it is graphic design or user
interface design forming a unique authentic
visual expression is what I enjoy to do
the most.

App Designing

This is the meditation app I designed to get familiar with the prototyping. I also learned so many things in designing as well. I am happy with the prototyping as it was the first app designing working prototyping I made ever.

Website Designing

This is the first website I designed and got paid for the same. Under the Devlooper company, thsi was the first contract of designing as well as development.

Figma Link:- <https://www.figma.com/file/k1nJX9BKp2CQbW9HsXm29O/Static-Field?node-id=0%3A1&t=Yyqoc13fDEtWKTAA-1>

The screenshot shows the homepage of the Startic Field website. At the top left is the logo 'Startic Field' with a blue and green swoosh icon. The top right features a navigation bar with links: Home, About Us, Why Startic Field?, Premium Membership, and Sign In. The main content area has a dark background. On the left, white text reads: 'The First Step To Electrifying Your Startup Journey Starts Here!'. To the right is a circular graphic containing a cartoon illustration of a man with a beard and blue hair, pointing at a pink button with a white 'X' on it. The graphic is surrounded by abstract shapes like triangles and brackets in blue, pink, and purple.

Logo Designing

This is the logo I designed for the Mandala Solutions and LLP. This was the first ever log I made till now where I tried my best to match the expectations and the deadline of them. I was able to provide 55 variation in color in the logo.

Logo Designing

I designed this Logo for the Devlooper company to take the work for Designing as well as Development. Till this logo made, I got handy over Adobe Illustrator and designed vector images too.

Carousel Designing

In the internship of Searckey Marketing and Media, I designed over 80 carousels in the interval of 2 months for the social media handel of them.

Poster Designing

I started my journey with the poster designing itself.

As being a part of technical team of our technical as well as cultural event of our college I was specially appointed for the poster designing which was finalized with no changes by co-ordinators as well as higher authorities. They claimed that poster made by me was perfect and clear enough not to require any changes. I also designed poster for Searckey Marketing and Media, under their internship.

INSTAGRAM STORY IDEAS

- Post polls on your stories.
- Ask me anything sticker.
- Motivational quotes Before and

5 TIPS TO WRITE COMPELLING INSTAGRAM CAPTIONS

- Include important details at the beginning of the caption i.e.

Creative Lead

Due to the work I had done in Technical Team of Technical event as well as the cultural event of our college, I was able to present the work I had done being in team. Which helped me to qualify the first round of the interview. I got shortlisted by the Google Developer Students Club's chapter Lead for the interview round. And appointed as a Creative Lead of Google Developers Students Club, GCOEN.

Self-Project

I love to make better than the previous work. I try my best to do so. The best way for me to excel in that is by the self-projects. I know I can do better than those which I made in past, but I prefer not to do any changes as it helps me to the biggest weakness of myself, i.e, overconfidence. It shows me that my work wasn't perfect, and the work which I am doing isn't going to be perfect either. And if I am not able to find any changes in the work in future, it means I didn't learned anything new. This pushes me to excel and step out of comfort zone.
